

At Pearland High School Theatre, our priority is making sure we give our students the best theatre education possible, not only in Pearland ISD but across the State of Texas. The students have kept up the rigor and excellence in the classrooms and on the stage through these uncertain few years. We are back and in full swing with our season of shows. I firmly believe there is nothing our students cannot do!

In the past few years, our students' accomplishments spoke for themselves amid a global pandemic and strict restrictions in and out of the schools. Just a few notable moments include:

- Theatre students produced 10 mainstage performances including our annual Fall Production, two separate Coffee Houses (school wide talent show), Award winning Winter Musical, State UIL One Act Play, and five different Senior Directed One Act Plays (known as SOAPS)
- Technical Theatre students produced 8 shows in collaboration with Pearland Choir, National Honor Societies, Principal Award Ceremonies, African American Culture Club, and many other groups to honor our staff, students, & community.
- Technical Theatre students are participating in the UIL Theatrical Design Competition, creating costume, lighting, marketing, and scenic designs for Frankenstein
- Three student actors were selected as National Qualifiers at the 2021 Texas Thespians Festival for their performance in Solo Musical Performance and Duet Acting. Pearland High School annually sends 20 plus students to compete and 40 plus students to hone their craft at the conference annually
- After being ranked first in Zone, District, and Bi-District Pearland Theatre students advanced to the UIL One Act Play 6A Area with a production of Joy Wilkinson's Sweet Science of Bruising

While we look forward to our upcoming 2023-2024 theatre season, we are faced with economic realities created by COVID-19 and inflation that affects many arts organizations during this time of rebuilding. To continue reaching as many students as possible, we have set a sponsorship goal of \$30,000 for our season this year. We welcome any monetary support you are able to provide. If you provide a good/service and would like to offer an in-kind donation (e.g., pre-show meals, tech equipment, etc.) we will gratefully recognize your generosity based on the value of the gift. Will you join us in working towards that goal?

Your involvement is paramount to our success. When people like you donate to our program, we can lay foundations for future student achievement as a community. I look forward to hearing from you, and I remain grateful for your investment in our young people.
